Re: **Notification of Asbestos Inspection and Management Plan Availability**

To: Whom It May Concern:

The Asbestos Hazard Emergency Response Act (AHERA) required that all schools conduct detailed inspections to identify all asbestos containing building materials (ACBM) that may be present in the school environment. AHERA required the inspection results and the associated Management Plan be submitted to the Louisiana Department of Environmental Quality (LDEQ). A copy of the Management Plan must be maintained at administrative office for review by the public.

Albany Middle School maintains a proactive asbestos awareness program. An accredited inspector has inspected the school and provided a letter stating to the best of his knowledge, no asbestos containing building materials (ACBM) was used at this school. A copy of the letter is in the Management Plan and available for review.

This letter of notification is an annual requirement to the public. If there are any questions, please contact the Designated Person, Danita Duffy, at 225-686-4212 for more information or assistance.
